

CPD FOR THE FOOD SECTOR

Professional training to transform your approach to food systems challenges

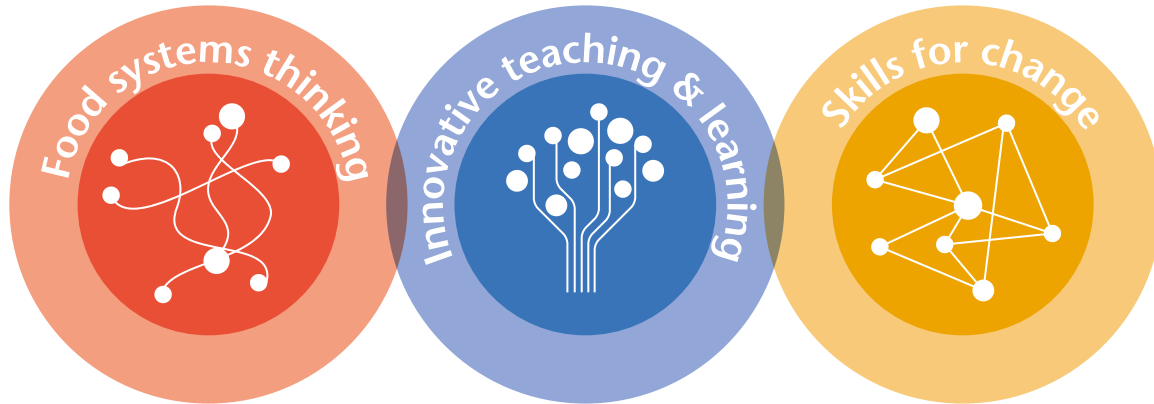

**Centre for
Food Policy**

Educating, researching & influencing
for integrated and inclusive food policy

IFSTAL

Interdisciplinary Food Systems Teaching And Learning

Become a flexible, creative and connected food systems thinker with the capability to enact real change

www.ifstal.ac.uk/CPD

DESIGNED TO PUT YOU AT THE FOREFRONT OF FOOD SYSTEMS THINKING

Aimed at all those in the food sector, including government, industry, NGOs, charities and educational institutions, our two-day CPD courses equip you with the most up-to-date knowledge on food systems. They also give you the tools to take your learning back into your organisation and create lasting impact.

You'll gain an understanding of the food system and benefit from the latest academic and professional insights. Created to change the way you view the food sector, our CPD training provides an effective toolkit for bringing about change.

- 🌿 Enhance your network and learn from other professionals
- 🌿 Acquire the knowledge and skills for collaboration to spearhead change
- 🌿 Widen your awareness of food system issues and actors as part of a cross-sector group
- 🌿 Build your capability to enact positive change in your organisation
- 🌿 Benefit from an innovative approach that challenges and broadens your thinking

By the end of this two-day course you will be able to:

- 🌿 Describe and give examples of what is meant by 'food systems'
- 🌿 Recognise the value of various food system sectors, disciplines and approaches
- 🌿 Articulate the key challenges and opportunities facing food systems
- 🌿 Describe how food system change is initiated and managed by different actors
- 🌿 Identify areas in which you can make positive change

IFSTAL – FOOD SYSTEMS EXPERTS COLLABORATING TO CREATE CHANGE

Drawing together leading experts from seven centres of excellence in food security, food policy, communication teaching and research, IFSTAL has been pioneering food systems thinking since 2015. As a cross-institution collaboration, our people are at the forefront of food systems thinking and deliver innovative training that harnesses the best of new and traditional teaching practice.

Our training expertise is underpinned by a rich, proactive network that includes academics and figures from industry, government and civil society, working across the food system, from production to retail and waste valorisation. IFSTAL courses allow delegates to tap into this broad network. Our CPD provides you with an enhanced food sector view and the relevant knowledge to enact change.

Taking a systems approach is about thinking broadly, not narrowly. In the end it will put the organisation in a much better place to deal with future challenges.

IFSTAL Workplace Partner

IFSTAL CPD CAN TRANSFORM THE WAY YOU THINK AND WORK

- 🌀 Get the latest insight into food systems thinking from leading experts
- 🌀 Acquire a deep understanding of food systems, from the local to the global
- 🌀 Broaden your professional network by working with colleagues from other areas
- 🌀 Learn to use the tools that create impact in your organisation and beyond

Need a bespoke approach?

In addition to offering CPD courses, we deliver customised training directly within your organisation to help you get to the core of the challenges you face. We will work with you to create a training package that addresses your unique issues while giving you access to the international IFSTAL network and community.

If you would like to discuss tailored food systems training to meet specific challenges within your organisation, please get in contact.
